Judge Testing Guide

Upload this PDF to LeaseLens and try the questions below. The questions are intentionally chosen to exercise clause retrieval, contradiction detection, risk explanation, missing-information detection, and evidence linking.

- What are the rent, deposit, lease dates, and escalation terms?
- What happens if the tenant wants to leave early?
- What does the agreement say about landlord entry?
- Which clause governs subletting?
- Show me the exact evidence for the security deposit.
- Are there any missing or ambiguous lease protections?
- Which clauses deserve closer review even without external legal comparison?

Expected behavior	LeaseLens should quote or locate the relevant clause, explain why it matters, distinguish fact from interpretation, and say when evidence is insufficient.
